► Multi-Facility Health System located in the Great Lakes area

Business Problem

- The client was having trouble installing a new software package. Client requested that the candidate have expertise in the following areas: clinical experience in the pharmacy field, Millennium PharmNet™ application and Millennium PharmNet™ data model. The health system looked to Akcia to provide someone with leadership skills and a clinical background as a

Solution

- Building databases.
- Testing Cerner applications.
- Assisting with PharmNet design.
- Working with CCL® custom reporting.
- Training new members in the application functions, database model, and application troubleshooting tools -- including CCL®.

Benefits

- Helped educate the current permanent staff.
- Ensured that the client met all project milestones for build and testing.

► Leading Children's Hospital in the Midwest

Business Problem

- The hospital sought assistance from Akcia with their on-going implementation of Cerner® Millennium Enterprise Scheduling. They were taking a phased approach to rolling out Cerner®'s Integrated Orders to Scheduling. This involved Akcia in designing, building and testing in the new areas, as well as maintenance and support of their Production environment.

Solution

- Akcia provided support in the following areas:
- Current State Documentation and Analysis.
- Future State Documentation and Analysis.
- Design.
- Build.
- Testing.
- Production Support.
- Troubleshooting.
- Knowledge Transfer.
- Issue Resolution.
- Visual Explorer Audit Reports.

Benefits

- Due to Akcia's dedication, the hospital completed two successful, on-time conversions and is planning for the next Phase.
- Having Akcia on-site has given the hospital a liaison between Cerner® and the hospital staff to facilitate the logging, troubleshooting and resolving of issues.
- At the hospital, Akcia has successfully tested and rolled out to Scheduling a major code release and an Oracle upgrade.

► Multi-Facility Health System located in the Great Lakes area

Business Problem

- The client needed an experienced leader to help on their Business Team. They looked to Akcia for assistance with clinical programs, core functionality, interfacing and CCL® programming.

Solution

- Build tools for code sets, locations, organization and security.
- Encounter domain table.
- Match and tag logic and clean-up process.
- HL7 messages.
- ADT interfaces.
- Writing custom CCL® reports

Benefits

- Helped educate the current permanent staff.
- Ensured the staff met all project milestones.

**Single Focus. Extraordinary Results.
Cerner® Professional Services from Akcia.**
